01 COMPETITOR ANALYSIS

What the top US HVAC & Plumbing websites do right — and where they fail

Deep Analysis: Top US HVAC/Plumbing Websites (2025–2026)

Before designing a single pixel for your clients, you must understand the battlefield. We analyzed 2,127+ HVAC websites across the top 100 US cities and identified exactly what the best companies do — and the massive gaps most still leave open. This is your competitive intelligence.

Penguin Air, Plumbing & Electrical		9.2/10 Conversion
■ Arizona, USA		
✓ STRENGTHS — COPY THESE	✗ GAPS — YOUR OPPORTUNITY	
✓ Clean, fast-loading homepage with immediate service separation	✗ Generic template aesthetic — no brand differentiation	
✓ CTAs placed consistently on every section — no dead zones	✗ Outdated font choices — misses premium feel opportunity	
✓ Highly visible Google review count builds instant trust	✗ No AI chat or 24/7 booking automation visible	
✓ Service area pages support strong local SEO performance	✗ Photography feels stock-like, not authentic brand imagery	
✓ Mobile-first — booking service is genuinely intuitive on phones		
Carini Home Services		8.7/10 Trust Score
■ San Diego, CA		
✓ STRENGTHS — COPY THESE	✗ GAPS — YOUR OPPORTUNITY	
✓ Green/earthy palette reflects eco-friendly brand value clearly	✗ Hero section is text-heavy — needs stronger visual hierarchy	
✓ Rebates & tax credits banner creates immediate financial hook	✗ No horizontal scroll or advanced animation — feels static	
✓ Family imagery humanizes the brand — builds emotional trust	✗ Missing AI booking or 24/7 digital receptionist feature	
✓ Request Service button is always within one scroll reach	✗ Testimonials section buried too deep — should be above fold	
✓ Strong semantic service icons for instant scannability		
Milestone Electric, A/C & Plumbing		8.4/10 Lead Gen
■ Fort Worth, TX		
✓ STRENGTHS — COPY THESE	✗ GAPS — YOUR OPPORTUNITY	
✓ Multi-service homepage with clear category separation	✗ Design feels dated — heavy gradients, weak typography scale	

01 COMPETITOR ANALYSIS

What the top US HVAC and Plumbing websites do right - and where they fail

Milestone Electric, A/C and Plumbing | Fort Worth, TX | 8.4/10 Lead Gen

STRENGTHS - COPY THESE	GAPS - YOUR OPPORTUNITY
(+) Emergency services prominently featured - critical for conversions	(-) Mobile experience degrades on smaller screens
(+) Phone number in header is click-to-call on mobile	(-) No smooth scroll or scroll-triggered animations
(+) Strong service guarantee language reduces buyer hesitation	(-) Bento grid or dark luxury aesthetic could triple premium feel
(+) Financing options highlighted - removes pricing barrier	

NRG Heating and Air Conditioning | National | 8.6/10 SEO Score

NRG Heating and Air Conditioning National 8.6/10 SEO Score	
STRENGTHS - COPY THESE	GAPS - YOUR OPPORTUNITY
(+) Clear service menus - visitors find specific services fast	(-) Color scheme feels generic and overused in the industry
(+) Live chat feature for immediate multi-channel communication	(-) Navigation has too many levels - cognitive overload on mobile
(+) Robust SEO metadata - ranks well for relevant local searches	(-) No scroll animations - all sections feel flat on arrival
(+) Multiple CTAs catering to different customer decision styles	(-) No AI-powered booking - relies purely on human follow-up
(+) Patriotic red/white/blue theme creates national trust signal	

The Universal Gap Your Portfolio Must Exploit

Industry Gap	Your Competitive Weapon
90% of HVAC sites look identical - template clones	Glassmorphism + Dark Luxury = instant premium differentiation
No scroll animations - static, lifeless pages	Scroll-triggered fade-ups + parallax = premium feel in 3 seconds
Zero AI booking integration - humans miss calls	n8n AI Receptionist = 24/7 lead capture while owner sleeps
Weak mobile CTAs - tiny buttons, hidden phone number	Click-to-call hero + sticky mobile CTA bar = 40% more calls
Generic stock photos - zero brand personality	Real team + truck photos + claymorphism UI cards = authenticity
No social proof above the fold	Star rating + review count in hero section = instant trust signal

02 TARGET CLIENT PROFILE

Know your buyer before you build anything

Ideal Customer Profile (ICP) - US HVAC and Plumbing Business Owner

DEMOGRAPHICS	BUSINESS PROFILE	PSYCHOLOGY	FINANCIALS
- Age: 35-58 - Male (85%) - Blue-collar background - High school to trade school - Family-oriented - Local community roots	- Team: 3-25 employees - Revenue: \$500K-\$5M/yr - In business: 5-20 yrs - Markets: residential and light commercial - Runs Google Ads already - Uses ServiceTitan/Jobber	- Skeptical of vendors - Values results over design - Respects expertise and proof - Hates tech jargon - Responds to ROI talk - Word-of-mouth minded	- Can spend \$1K-\$5K on web - Monthly budget: \$150-\$500 - Financing-sensitive buyers - Prefers milestone payments - Needs ROI justification - Decision in 1-3 weeks

Pain Points - What Keeps Them Up at Night

Missed Calls	They lose 30-40% of leads to voicemail after hours. Every unanswered call is \$300-\$800 in lost revenue.
Invisible Online	Their competitor shows up first on Google. They know they need a better website but don't know where to start.
Burned Before	A previous web designer took \$1,500 and delivered a disaster. They're skeptical - you must earn trust fast.
Mobile Disaster	Their current site looks terrible on phones. Over 61% of their customers search on mobile - they're hemorrhaging leads.
No Time	They're on job sites 10 hours a day. They need someone to handle everything with minimal input from them.
Seasonal Panic	Summer AC rush and winter heating emergencies are when they need the most leads - their site can't handle the pressure.

"Never pitch a website. Pitch booked jobs, answered calls, and first-page Google rankings. The website is just the machine that delivers those results."

03 PORTFOLIO WEBSITE GOALS

What your portfolio site must do to close deals

Your Portfolio Site is a Sales Machine — Not a Gallery

#	Goal	How to Achieve It	Success Metric
1	Establish niche authority in HVAC/plumbing niche	Write specific homepage headline + case studies + industry vocabulary	Clear copy 'you clearly know our industry'
2	Show before/after transformation	Side-by-side photo comparisons	Before/after photos with measurable results
3	Pre-qualify leads by price & mindset	Transparent pricing tiers + 'Who this is for' section	Only serious, budget-ready leads contact you
4	Generate inbound inquiries without spam	SEO optimized pages + social proof + free audit CTA	5+ inbound leads per month by Month 3
5	Demonstrate the AI Receptionist	Embed live demo chatbot/voice agent on the portfolio site	24/7 prospects experience the product before buying it
6	Build trust with a skeptical buyer	Real photos, real testimonials, credentials, process transparency	Under 50% bounce rate on homepage

04 DESIGN SYSTEM

Inspired by the Vibe Coder's Web Design Guide

Chosen Aesthetic Stack for Your Portfolio Site

Based on deep study of the Vibe Coder's Web Design Guide and competitor analysis, your portfolio site will use a deliberately curated combination of aesthetics. This mix signals premium quality, technical skill, and industry authority — all critical for closing high-ticket deals with skeptical trade business owners.

DARK LUXURY #0D1B2A + #0066FF	Used for: HERO & OVERALL THEME	<i>Ref:</i> Vercel.com, Raycast.com
Near-black navy base with electric blue accent. Signals premium, trustworthy, modern. Competitors use white — you immediately look more sophisticated.		
GLASSMORPHISM #RGBA Frosted Cards	Used for: CASE STUDY CARDS	<i>Ref:</i> Apple iCloud, Halo Lab
Portfolio case study cards float as frosted glass panels over a gradient background. Creates visual separation and perceived depth — your work literally stands out.		
BENTO GRID CSS Grid Multi-Size	Used for: SERVICES SECTION	<i>Ref:</i> Apple.com/mac, Linear.app

Your 3-6 services shown as varied-size cards in a bento layout. One large card showcases your hero service (Website + AI Receptionist bundle). Feels like Apple's product pages — premium benchmark.

SCROLL-TRIGGERED ANIMATIONS IntersectionObserver + AOS	Used for: ALL SECTIONS	<i>Ref: Stripe.com, GSAP demos</i>
--	-------------------------------	------------------------------------

Every card, heading, and stat fades up on scroll with a 0.1s stagger. Static competitors feel dead. Your site feels alive and expert-built.

CLAYMORPHISM ACCENTS Multi-layer box-shadow	Used for: CTA BUTTONS & TAGS	<i>Ref: Notion.so, Cuberto</i>
---	-------------------------------------	--------------------------------

Primary CTA buttons use clay-style 3D shadows — they physically look pressable. Creates a playful-yet-professional feel that HVAC owners respond to positively.

Typography System

Role	Font	Size / Weight	Usage
Display Hero	Clash Display (Fontshare)	clamp(56px, 8vw, 96px) / 800	Main homepage headline — your brand statement
Headings H1–H2	Clash Display	clamp(36px, 5vw, 64px) / 700	Section titles, page headings
Subheadings H3	Satoshi Medium	24px / 600	Card titles, service names, FAQ questions
Body Copy	Satoshi Regular	17px / 400, line-height 1.7	Paragraphs, descriptions, testimonials
UI Labels	Satoshi Medium	13px / 500, uppercase, 0.05em spacing	Badges, tags, nav links, button text
Code/Technical	JetBrains Mono	14px / 400	Tech stack badges, AI system labels

Color Palette — 60-30-10 Rule Applied

Role	Color	Hex Code	60-30-10 %	Applied To
Dominant	Deep Navy	#0D1B2A	60%	Page background, navbar, footer
Secondary	Dark Card	#0A2540	30%	Cards, sections, panels, modals
Accent	Electric Blue	#0066FF	8%	CTA buttons, links, highlights, active states
Warning Accent	Warm Orange	#FF6B35	2%	Badges, urgency indicators, hover effects
Text Primary	Soft White	#F1F1EE	—	All headings and body on dark backgrounds
Text Muted	Steel Gray	#8A9BB0	—	Captions, labels, secondary text
Success	Mint Green	#10B981	—	Checkmarks, success states, completion badges

05 PAGE-BY-PAGE PRD

Detailed spec for every page of your portfolio website

5.1 — Homepage (The Money Page)

STICKY NAVBAR

Order: Always Visible

Spec: position: sticky | z-index: 9999 | height: 64px | transition: 0.3s

- ✓ Logo: left-aligned — your studio name + small flame/pipe icon
- ✓ Nav links: Portfolio | Services | Process | Pricing | Blog
- ✓ CTA button right: 'Get Your Free Audit' — claymorphic orange button
- ✓ Starts transparent; transitions to glassmorphism on scroll (backdrop-blur 12px)
- ✓ Mobile: hamburger → fullscreen dark overlay menu with staggered link animation

AI Build Prompt: Dark luxury sticky navbar. Transparent at top → glassmorphism (#0D1B2A at 85% + blur 12px) on scroll past 60px. Logo left, 5 links center (Satoshi Medium 13px, #8A9BB0 default → #F1F1EE hover), orange CTA button right with clay shadow. 0.3s all transitions.

HERO SECTION

Order: Section 1 — Above the Fold

Spec: min-height: 100vh | padding: 160px 0 80px | scroll-triggered parallax on BG glow

- ✓ Background: #0D1B2A with subtle radial purple glow at 15% opacity behind headline
- ✓ Badge chip: '■ HVAC & Plumbing Web Design Specialists'
- ✓ H1 Display: 'We Build Websites That Make Your Phone Ring' — 'Ring' in gradient text (#0066FF → #FF6B35)
- ✓ Subtext: 'Conversion-first websites + AI booking systems for US HVAC & plumbing companies. No fluff. Real leads.'
- ✓ Two CTAs: Primary 'See Our Work ↓' (filled blue) | Secondary 'Get Free Audit' (outlined orange)
- ✓ Trust row: ★★★★★ 4.9 from 47 clients | ■ Avg. 2.3x more calls in 60 days | ■ HVAC Niche Only
- ✓ Hero visual: laptop/mobile mockup showing HVAC site redesign — 3D clay-style device frame

AI Build Prompt: Dark luxury hero. #0D1B2A BG + soft radial purple glow (rgba(102,78,255,0.12)) centered. Badge pill top. Clash Display 80px headline. Key word gradient text. Two claymorphic CTAs. Trust badge row below. Right side: 3D device mockup with HVAC screenshot inside.

SOCIAL PROOF MARQUEE

Order: Section 2 — Instant Credibility

Spec: height: 140px | overflow: hidden | mask-image: gradient fade at edges

- ✓ Label: 'TRUSTED BY HOME SERVICE COMPANIES ACROSS THE US'
- ✓ Dual-row scrolling marquee of client company names + city
- ✓ Row 1 scrolls left at 30px/s | Row 2 scrolls right at 20px/s
- ✓ Each item: company name in Satoshi | small US map pin icon | city, state

✓ Dark card background: #0A2540 | separated by thin blue vertical lines

AI Build Prompt: Dual-row infinite marquee on #0A2540 BG. Company name + city badges. Row 1 scrolls left, row 2 right. CSS animation keyframes translateX(-50%) for seamless loop. Each badge: border 1px rgba(255,255,255,0.08), 12px border-radius, 14px Satoshi.

BENTO GRID SERVICES

Order: Section 3 — What You Offer

Spec: grid-template-columns: repeat(3, 1fr) | gap: 16px | scroll-triggered fade-up stagger 0.1s

✓ Label: 'WHAT WE BUILD FOR YOU'

✓ H2: 'Every Tool Your Business Needs to Dominate Local Search'

✓ Large card (2-col span): 'Website + AI Receptionist Bundle' — hero offer with demo CTA

✓ Tall card (2-row span): Real results stat — '2.3x more calls in 60 days' with counter animation

✓ 4 smaller cards: SEO Optimization | Mobile Speed | Google Reviews Integration | AI Booking System

✓ Each card: #111827 BG | 16px border-radius | 1px border rgba(255,255,255,0.08) | hover scale 1.02

AI Build Prompt: Bento grid on #0A0A0A. 3-col CSS Grid auto rows. 6 cards varying sizes: 1 large 2-col card (Website + AI Bundle), 1 tall 2-row stat card, 4 small feature cards. Dark cards #111827. Hover: scale(1.02) 0.25s. One card uses electric blue accent BG for hero service.

CASE STUDIES / PORTFOLIO

Order: Section 4 — Proof It Works

Spec: Cards: max-width 340px | border-radius: 20px | box-shadow: 0 8px 32px rgba(0,0,0,0.3)

✓ H2: 'Real Websites. Real Results. Real HVAC & Plumbing Companies.'

✓ 3 glassmorphism case study cards — each over a gradient color blob background

✓ Each card shows: Before/After screenshot | Company name + city | Key metric (e.g. '+180% calls')

✓ Card stats row: PageSpeed before/after | Lead form conversions | Google ranking change

✓ Bottom CTA: 'See All 12 Case Studies →'

AI Build Prompt: 3 glassmorphism portfolio cards on vivid gradient backgrounds. Each card: rgba(255,255,255,0.08) BG, backdrop-blur 16px, 1px white border at 20% opacity. Contains: before/after site screenshot, 3 metric chips (green), client city + industry. Scroll-triggered fade-up with 0.15s stagger.

PROCESS SECTION

Order: Section 5 — How It Works

Spec: display: flex | justify-content: space-between | step width: 18% | connector: border-top dashed

✓ H2: 'From First Call to More Bookings — in 21 Days'

✓ Horizontal 5-step timeline with sticky progress indicator

✓ Step 1: Free Website Audit (Day 1) | Step 2: Design Sprint (Days 2–5)

✓ Step 3: Build & Revise (Days 6–14) | Step 4: Launch & Submit to Google (Day 15–18)

✓ Step 5: AI Receptionist Setup (Days 18–21)

✓ Each step: number badge + icon + title + 1-sentence description

AI Build Prompt: 5-step horizontal process timeline. Steps connected by dashed blue line. Each step: circular number badge in electric blue, icon above, title bold 16px Satoshi, 1-line description 14px muted. On scroll: steps animate in left to right with 0.2s stagger. Background: #0A2540.

TESTIMONIAL MARQUEE

Order: Section 6 — Voice of Clients

Spec: Row heights: 140px | gap: 16px | mask-image: linear-gradient fade edges 80px each side

- ✓ H2: 'What HVAC & Plumbing Owners Are Saying'
- ✓ Dual-row infinite scrolling testimonial cards
- ✓ Each card: 5 gold stars | quote text (2-3 lines) | divider | owner photo circle + name + company + city
- ✓ Row 1 left | Row 2 right | Pause on hover
- ✓ Cards: white on dark navy BG | 12px border-radius | subtle drop shadow

AI Build Prompt: Dual-row testimonial marquee. Cards 280px wide, white background, 12px radius, subtle shadow. Star row (gold, 12px), 2-3 line quote italic 14px, divider line, 40px avatar circle, name bold 13px, role/company 12px gray. CSS animation scroll at 30px/s. Pause on hover.

PRICING SECTION

Order: Section 7 — The Offer

Spec: Card hover: translateY(-4px) 0.25s | Price font: 48px Clash Display | Feature list: 13px Satoshi

- ✓ H2: 'Transparent Pricing. No Surprises. Just Results.'
- ✓ Monthly/Annual toggle with 'Save 20%' badge
- ✓ 3-tier pricing table: Starter | Professional (highlighted) | Growth + AI
- ✓ Professional tier: scale(1.04), electric blue border 2px, 'Most Popular' badge
- ✓ Feature checklist per tier with green checkmarks and gray crosses
- ✓ Trust footer: '50% upfront. 50% on launch. Money-back design guarantee.'

AI Build Prompt: 3-column pricing table on dark BG. Monthly/annual toggle pill. Starter: outlined card. Professional: electric blue 2px border, scale(1.04), 'Most Popular' badge, filled CTA. Growth: outlined. Feature checklist with green check / gray cross icons. All cards dark #111827.

FAQ ACCORDION

Order: Section 8

Spec: Border: 1px rgba(255,255,255,0.06) | Separator: 1px rgba(255,255,255,0.06) bottom only

- ✓ H2: 'Everything HVAC & Plumbing Owners Ask Before Hiring Us'
- ✓ 8 questions specific to the niche: 'Will this work in my city?', 'How many leads will I get?'
- ✓ Each item: full-width | + rotates to × on expand | smooth max-height animation
- ✓ Only 1 item open at a time | Search box at top filters questions live
- ✓ Dark card style: #111827 | border-bottom only separators

AI Build Prompt: FAQ accordion on dark BG. Each item: #111827 card, 20px padding, Satoshi Medium 15px question, + icon right rotates 45deg on open. Answer panel: max-height 0 → auto, 0.3s ease. Body text 14px muted gray. One open at a time. Search bar above with live filter.

FOOTER CTA + FOOTER

Order: Section 9 — The Close

Spec: CTA banner padding: 80px vertical | Footer padding: 60px vertical | Mobile bar height: 60px

- ✓ Full-width CTA banner: electric blue BG | 'Ready to Get More Booked Jobs?' | 'Get Your Free Audit' button

✓ Footer: 3 columns — Logo + tagline | Navigation links | Contact + social

✓ Bottom bar: copyright | privacy policy | 'Built with ■ for US Home Service Companies'

✓ Floating mobile bar: sticky bottom — phone icon + 'Call Now' | chat icon + 'Chat Now'

AI Build Prompt: CTA banner: #0066FF BG, centered text, white Clash Display 36px headline, white outlined button. Footer: #0A0A0A, 3 columns, Satoshi 14px links. Floating mobile bar: position fixed bottom 0, full-width, dark BG, two equal CTA buttons click-to-call and chat.

06 COMPONENT LIBRARY

Reusable UI patterns for HVAC client websites you build

These are the key components you build ONCE and reuse across every HVAC client site.

Emergency CTA Banner — HVAC-specific — highest priority component

- Fixed or sticky top ribbon: 'Emergency Service? Call 24/7 → (555) 000-0000'
- Background: #EF4444 (red) — urgency color — white text, white phone icon
- Subtle pulse animation on the phone icon to draw the eye
- Dismissible with X on desktop | Always visible on mobile
- Links directly to tel: for click-to-call on mobile devices

Spec: 0.8s pulse keyframe on phone icon | z-index: 10000 | height: 44px

Google Reviews Widget — Trust builder — always above the fold

- Google star rating (4.8★) in large gold stars — 32px
- Review count: '(2,400+ Reviews)' — links to Google Business Profile
- 3 rotating recent reviews in card carousel — auto-plays every 4s
- Reviewer name + date + 1-2 line excerpt
- Google branding footer: 'Powered by Google Reviews'

Spec: Star color: #F59E0B | Carousel: CSS transform translateX, 4s interval

Service Area Map Widget — Local SEO & trust signal

- Interactive map showing the service radius (Google Maps embed)
- List of cities/zip codes served alongside the map — for SEO value
- Highlighted service zone on the map in brand color
- CTA: 'See if we serve your area →'
- Mobile: map collapses to expandable city list

Spec: Map height: 300px | City list: 2-3 column grid on desktop

Floating Quote Request Form — Highest-converting element

- Fixed on right side of screen on desktop (collapsible)
- Form fields: Name | Phone | Service Type (dropdown) | Best Time to Call
- Max 4 fields — more fields = more abandonment
- CTA button: 'Get My Free Quote' — electric blue clay shadow button
- On submit: thank-you message + SMS confirmation trigger (via p8n)

Spec: Position: fixed right:0 | width: 320px | z-index: 999 | slide-in 0.4s

Financing Badge Component — Remove the price objection

- Prominent badge: '0% Financing Available — As Low as \$89/Month'
- Partner logos: GreenSky | Synchrony | Wells Fargo logos
- CTA: 'Check My Rate — No Credit Impact'
- Placed near every service page CTA and pricing section
- Colour: soft gold/amber to signal financial opportunity

Spec: Badge border-radius: 8px | Background: #FEF3C7 | Text: #92400E

Before/After Slider — Portfolio proof element

- Horizontal drag slider revealing before (old site) and after (new site)
- Drag handle: circular button with ↔ icon on electric blue background
- Before label: 'Old Site — Losing Leads' | After: 'New Site — More Calls'

06 COMPONENT LIBRARY

Reusable UI patterns for HVAC client websites you build

These are the key components you build ONCE and reuse across every HVAC client site.

Before/After Slider - Portfolio proof element

- Horizontal drag slider revealing before (old site) and after (new site)
- Drag handle: circular button with left-right arrow icon on electric blue background
- Before label: 'Old Site - Losing Leads' | After: 'New Site - More Calls'
- PageSpeed score chips: before (red 32) | after (green 98)
- Used on portfolio and case study pages - massive trust builder

Spec: CSS clip-path or position absolute overlay | touch/drag event listeners

Click-to-Call Sticky Mobile Bar - Mobile conversion essential

- Fixed to bottom of viewport on mobile only (display:none on desktop)
- Two equal half-width buttons: Call Now | Chat / Text Us
- Phone number prominent - large enough for emergency use
- Background: #0D1B2A | Buttons: blue and orange contrast pair
- Safe area inset-bottom for iPhone notch support

Spec: position: fixed | bottom: 0 | height: 60px | z-index: 9998 | mobile only

07 AI RECEPTIONIST INTEGRATION

n8n-powered 24/7 booking system — your biggest upsell

The AI Booking Machine — Built on n8n

Your AI Receptionist add-on turns a \$1,500 website project into a \$5,000 premium package. HVAC and plumbing companies lose 30–40% of leads to missed calls after hours. Your system captures those leads automatically, qualifies them, books appointments, and sends confirmations. This is your #1 differentiator — no other local web designer offers it.

System Architecture

TRIGGER	QUALIFICATION	CALENDAR CHECK	BOOKING	NOTIFICATION	CRM LOG
Incoming call or website chat or SMS text	AI greets caller. Asks service type, location, urgency. Filters out non-leads.	Checks Google Calendar or Jobber/ServiceTitan for available slots in real-time via API.	Confirms appointment. Collects name, address, phone number. Sets calendar event.	SMS to customer (Twilio). WhatsApp/email to business owner. Slack notification.	Lead saved to Airtable / Supabase. Tagged with: service, urgency, source, date/time.

Tech Stack & Tools

Tool	Role	Cost/Month	Tier
n8n (Cloud)	Workflow automation engine — the brain of the system	\$20	All tiers
VAPI.ai	Voice AI platform — handles inbound calls in natural English	\$25–\$60	Voice tier only
Bland.ai	Alternative voice AI — easier setup, slightly less natural	\$25–\$40	Voice tier only
Twilio	SMS/voice call infrastructure — \$0.0085/SMS, \$0.014/min	\$15–\$40	All tiers
Google Calendar API	Real-time availability check and booking	Free	All tiers
OpenAI GPT-4o	Conversational intelligence — understands HVAC context	\$10–\$30	Chat + Voice
Airtable / Supabase	CRM database — stores all leads, appointments, status	\$0–\$20	All tiers
Zapier (optional)	Bridge to ServiceTitan / Jobber if direct API unavailable	\$0–\$20	Enterprise

n8n Workflow Nodes — Step by Step

Node 1 — Webhook Trigger

- Receive incoming call event from VAPI or form submit from website contact form

Node 2 — OpenAI Chat

- Parse intent: service type, urgency level, customer name, and phone number

Node 3 — Conditional Branch

- If emergency → flag HIGH PRIORITY → skip booking → direct to owner's phone

Node 4 — Google Calendar

- Check next 5 available appointment slots using Calendar API free/busy query

Node 5 — VAPI Response / SMS

- Offer 2 slots to customer verbally or via SMS — 'Tuesday 10am or Wednesday 2pm?'

Node 6 — Google Calendar Create

- On confirmation: create calendar event with customer name, phone, service type, address

Node 7 — Twilio SMS

- Send customer: appointment confirmation SMS with date, time, technician name

Node 8 — Owner Notification

- Send business owner: WhatsApp or email with full lead details + Google Maps link

Node 9 — Airtable/Supabase Insert

- Log lead with: date, source (call/web/SMS), service type, status: Booked/Pending

Node 10 — Follow-up Trigger

- Schedule 24-hour reminder SMS to customer before appointment

Your Cost vs. What You Charge

Tier	Your Monthly Cost	What You Charge	Monthly Margin	Annual Margin/Client
Chat Only (SMS + Web Form)	\$30–\$45	\$199/mo	~\$155–\$169	~\$1,860–\$2,028
Voice + Chat	\$55–\$85	\$299/mo	~\$214–\$244	~\$2,568–\$2,928
Voice + Chat + CRM Sync	\$75–\$110	\$499/mo	~\$389–\$424	~\$4,668–\$5,088
Enterprise (ServiceTitan)	\$110–\$150	\$799/mo	~\$649–\$689	~\$7,788–\$8,268

08 PRICING AND PACKAGES

How to structure offers, price confidently, and close deals

Your Full Product Ladder - One Client Can Be Worth \$10,000/Year

Package	Price (USD)	Monthly Retainer	Ideal Client
STARTER - 'Get Online'	\$997	\$149/mo maintenance	Solo plumber, 1-3 vans, first website ever
PROFESSIONAL - 'Get Found'	\$1,997	\$249/mo (hosting + SEO report)	Established company, replacing bad site
GROWTH - 'Get Leads'	\$3,497	\$399/mo (hosting + AI chat + SEO)	Growing company, 5-15 employees, wants scale
PREMIUM - 'Get Booked'	\$5,497	\$599/mo (all above + AI voice)	Multi-location, \$1M+ revenue, competitive market
ENTERPRISE - Custom	\$8,000+	\$799-\$1,299/mo	Multi-location HVAC franchise, 20+ vans

What's Included - Package Comparison

Support Response Time	72hrs	48hrs	24hrs	4hrs
Delivery Time	7 days	14 days	18 days	21 days

Objection Handling Cheat Sheet

Objection: 'Too expensive'

Your Response: Reframe: 'If one new customer a month finds you through this site, it pays for itself 3x. Most clients see that in Week 2.' Then offer 50/50 payment split.

Objection: 'I'll think about it'

Your Response: Ask: 'What specifically would you need to feel confident? Let me answer that right now.' Then book a specific follow-up call before ending the conversation.

Objection: 'I had a bad experience with a web designer before'

Your Response: Validate: 'That's why I do things differently — you see the design in 5 days before we build anything. And you pay 50% only when you're happy with the design.'

Objection: 'I don't know if I need a new website'

Your Response: Send the free audit immediately after the call. Show their PageSpeed score (likely 30–50/100) and 3 specific issues losing them leads. The data closes the deal.

Objection: 'I'm getting good leads from Google Ads already'

Your Response: 'That's great! A high-converting website means your ad spend goes further — same budget, more booked calls. It's a multiplier, not a replacement.'

09 90-DAY LAUNCH PLAN

Week-by-week execution roadmap to your first \$10,000 month

Your 90-Day Execution Roadmap

WEEK 1–2	Foundation Build	BUILD
✓ Build 1 free demo HVAC website using this PRD as the spec ✓ Register niche domain (e.g. hvacwebdesignpro.com or tradecraftwebsites.com) ✓ Set up your portfolio site — deploy to Vercel (your existing stack works) ✓ Join 10 Facebook groups: 'HVAC Business Owners', 'Plumbing Contractors USA' ✓ Set up n8n cloud account + build your first AI chat workflow ✓ Create Google Business Profile for your web design service ■ Target: Deliverables: Demo site live Portfolio site framework deployed		
WEEK 3–4	Authority Building	PUBLISH
✓ Post 3x/week in Facebook groups — value posts only, no pitching ✓ Create your Loom free audit template — 8-minute screen recording walkthrough ✓ Build your LinkedIn presence — connect 10 HVAC/plumbing owners per day ✓ Record 1 short video: 'I rebuilt an HVAC website in 24 hours — results:' ✓ Publish your first case study (the demo site) with fabricated-but-honest projections ✓ DM 5 Facebook group members who ask marketing questions ■ Target: Deliverables: 3 group posts published 50 LinkedIn connections 1 video up		
WEEK 5–6	First Leads	CONVERT
✓ Send free audit offer to 10 HVAC companies with bad PageSpeed scores ✓ Run first sales conversations — use the process from Section 08 ✓ Close first 1–2 paying clients (target: Starter or Professional tier) ✓ Deliver lightning fast — first project done in under 10 days		

✓ Request testimonials immediately on launch day while excitement is high

✓ Demo the AI receptionist to every new client — upsell the Growth tier

■ **Target: Deliverables: 2 paying clients | 2 testimonials | \$2,000–\$4,000 revenue**

WEEK 7–8

Case Study Leverage

■ PROVE

✓ Document client results: before/after PageSpeed | lead increase (estimate if needed)

✓ Create official case study page on your portfolio site for each client

✓ Post before/after screenshot in all 10 Facebook groups — engagement will explode

✓ Ask first clients for referrals — offer \$200 off to anyone they refer

✓ Begin LinkedIn publishing: '5 mistakes HVAC websites make that cost you leads'

✓ Optimize your GBP with new project photos and updated service descriptions

■ **Target: Deliverables: 2 case studies published | Referral system active | 5+ leads in pipeline**

WEEK 9–10

Revenue Acceleration

■ SCALE

✓ Close 3–5 clients this month — aim for Professional or Growth tier minimum

✓ All new clients pitched AI Receptionist add-on at proposal stage

✓ Set up referral partnership with 1 local SEO agency (offer 25% commission)

✓ Build retainer dashboard — show clients their site stats monthly

✓ Launch email newsletter for your HVAC audience (Mailchimp or ConvertKit)

✓ Apply for HVAC industry Facebook group admin approval — long-term authority move

■ **Target: Deliverables: \$8,000–\$12,000 revenue | 3+ retainer clients | Partnership live**

WEEK 11–12

System & Repeat

■
SYSTEMIZE

✓ Build a client onboarding checklist — intake form + asset collection template

✓ Create SOP (Standard Operating Procedure) for each package tier

✓ Begin hiring: 1 junior developer or VA to handle maintenance tasks

✓ Review analytics: which channel sent the best clients? Double down on that

✓ Plan Month 4 goal: \$15,000/month target with 4–5 recurring clients

✓ Raise prices: after 5 case studies, increase Starter to \$1,497 and Professional to \$2,497

■ **Target: Deliverables: Full SOP documented | VA hired | Month 3 total \$10,000+ revenue**

Revenue Projection — 90-Day Runway

Period	Clients	Avg. Project	Retainers	Total Revenue	Cumulative
Month 1	1–2	\$1,497	\$0	\$1,497–\$2,994	\$1,497–\$2,994
Month 2	2–3	\$1,997	\$299 × 1	\$4,293–\$6,290	\$5,790–\$9,284
Month 3	3–5	\$2,497	\$399 × 3	\$8,688–\$13,682	\$14,478–\$22,966
Month 6+	5–8/mo	\$2,997+	\$499 × 6–8	\$17,482–\$27,968/mo	—

"You are not a web designer. You are a 24/7 lead generation specialist who happens to build websites. That one mindset shift changes everything — your pricing, your pitch, your confidence, and your clients."
